Kata Kunci: Pelayanan *Customer Relations*, Loyalitas Pelanggan, Dunkin Donuts Fatmawati.

THE IMPACT OF CUSTOMER RELATIONS SERVICE TOWARDS DUNKIN DONUTS FATMAWATI CUSTOMER LOYALTY

ALFI FITRIYAH

Abstract

The rise of Franchise business in the field of food and beverage, makes Dunkin Donuts strive to maintain quality and service in order to preserve customer loyalty. Dunkin Donuts must be able to compete with competitors who sell the same product. This research aims to determine the influence of customer relations service towards customer loyalty Dunkin Donuts Fatmawati. The population of this research is Dunkin Donuts Fatmawati customer through accidental sampling technique. The population is taken from a monthly purchase transaction of 2,850 customers, with a sample based on the Yamane formula of 97 respondents. This research using Customer Relations Service theory measured based on the existing dimensions of Reliability, Responsiveness, Assurance, Empathy and Tangibles. Customer Loyalty is also measured by indicators such as regular purchase, product recommendation, and showing immunity to competitors' attractiveness. From the results of the correlation coefficient r calculate is 0.552 which indicates that the value is quite meaningful because it lies between 0.640 - 0.70 (enough means). Result of hypothesis test t count equal to 6,469 $>$ from t table equal to 1,661 hence can be concluded H_0 rejected and H_a accepted.
