***Abstract***

*Venture capital is one of the financial institutions that provide capital assistance and also management assistance for business partners (PU). In accordance with the transitional provisions of Law No. 21 of 2011 concerning the Financial Services Authority, since December 31, 2012, the functions, duties, and authority of regulating and supervising financial service activities in the Financing Institution sector have shifted from the Finance Minister and Bapepam of Financial Institutions to the Financial Services Authority. Therefore, Venture Capital Companies in carrying out their business activities such as the participation of venture capital, management of venture funds, fee-based service activities, and other activities must be based on the arrangement and approval of the Financial Services Authority. This study uses a normative juridical research method with the nature of analytical descriptive writing. Data collection is done by literature study and interviews. The collected data is then analyzed qualitatively. The aim of the study was to find out how the role and authority of the Financial Services Authority in the revocation of PT.
