Abstrak

Pasal 28D ayat (1) UUD 1945 menyebutkan bahwa setiap orang berhak atas pengakuan, jaminan, perlindungan, dan kepastian hukum yang adil serta perlakuan yang sama dihadapan hukum, kemudian Pasal 57 huruf a Undang-Undang Nomor 36 Tahun 2014 tentang Tenaga Kesehatan juga menyebutkan bahwa tenaga kesehatan dalam menjalankan praktik berhak memperoleh perlindungan hukum sepanjang melaksanakan tugas sesuai dengan Standar Profesi, Standar Pelayanan Profesi, dan Standar Prosedur Operasional. Bila melihat peraturan perundang-undangan mengenai tenaga kesehatan nampaknya belum ada yang mengatur penjaminan kepastian hukum bagi tenaga kesehatan khususnya tenaga keperawatan walaupun sudah ada Undang-undang Nomor 36 Tahun 2014 tentang Tenaga Kesehatan.

Permasalahan dalam penelitian ini adalah apakah tenaga keperawatan sudah mendapatkan perlindungan hukum dalam menjalankan tugasnya dan apa upaya dan langkah dalam perlindungan hukum terhadap tenaga keperawatan.

Metode penelitian ini menggunakan pendekatan yuridis normatif, dengan dengan cara meneliti bahan pustaka atau data sekunder yang terdiri dari bahan hukum primer, bahan hukum sekunder dan bahan hukum tersier.

Berdasarkan hasil penelitian bahwa tenaga keperawatan sudah mendapatkan perlindungan hukum, namun upaya perlindungan hukum yang diberikan masih terdapat kelemahan karena sebagian hak tenaga kesehatan belum terpenuhi. Dalam upaya dan langkah dalam perlindungan hukum terhadap tenaga keperawatan pemerintah belum mampu secara maksimal memberikan perlindungan hukum dan jaminan kesehatan dan keselamatan kerja terhadap tenaga keperawatan akibat pandemi Covid 19 , sebagaimana mestinya dalam amanat undang-undang, dalam pelaksanaannya hak-hak tenaga kesehatan selama pandemi Covid 19.

Kata Kunci : Perlindungan Hukum, Tenaga Keperawatan, Covid 19.

Protection For Nurse Profession In The Covid19 Pandemic Condition From The Perspective of Indonesian Health Workers Law

Abstract

Article 28D paragraph (1) of the 1945 Constitution states that every person has the right to recognition, guarantee, protection and legal certainty that is just and equal treatment before the law, then Article 57 letter a of Law No. 36 of 2014 concerning Health Personnel also states that health workers in carrying out practices are entitled to obtain legal protection as long as carrying out their duties in accordance with Professional Standards, Professional Service Standards, and Operational Procedure Standards. If you look at the laws and regulations regarding health workers, it seems that there is no one that regulates legal certainty for health workers, especially for nursing personnel, even though there is Law Number 36 of 2014 concerning Health Workers.

The problem in this research is whether nursing personnel have received legal protection in carrying out their duties and what are the efforts and steps in legal protection for nursing personnel.

This research method uses a normative juridical approach, by examining library materials or secondary data consisting of primary legal materials, secondary legal materials and specific legal materials.

Based on the results of the study, nursing staff have received legal protection, but the legal protection measures provided still have weaknesses because some of the rights of health workers have not been fulfilled. In efforts and steps in legal protection for nursing personnel, the government has not been able to provide maximum legal protection and health and safety insurance for nursing personnel due to the Covid 19 pandemic, as mandated by law, in implementing the rights of health workers during the Covid 19 pandemic.

Keywords : Legal Protection, Nurse Profession, Covid 19.
