

IMPLEMENTASI KERJASAMA ANTARA INDONESIA DAN BRAZIL DI BIDANG KEAMANAN DAN INDUSTRI PERTAHANAN TAHUN 2010-2017

Niken RahmaDhiana Putri

Abstrak

Penelitian ini akan mengkaji mengenai implementasi kerjasama antara Indonesia dan Brazil di bidang industri pertahanan tahun 2010-2017. Kerjasama ini dimulai dengan penandatanganan MoU pada tahun 2010 yang mencakup pembelian Super Tucano EMB-314, Transfer Teknologi MLRS Astros II, Penempatan atase pertahanan dan latihan militer gabungan. Penelitian ini menggunakan pendekatan metode Kualitatif dengan mencari data yang sesuai dengan topik penelitian, hasil penelitian menunjukkan bahwa kepentingan Indonesia melakukan kerjasama dibidang industri pertahanan dengan Brazil karena saat ini Indonesia menginginkan kemandiriannya dalam hal memproduksi peralatan alutsista serta memodernisasi peralatan alutsista hal ini dikarenakan Indonesia sadar akan adanya perkembangan ancaman yang semakin nyata sehingga untuk menjaga wilayah NKRI dibutuhkan peralatan alutsista yang modern. Dan manfaat bagi Indonesia, seperti alutsista Indonesia semakin baik, pendidikan prajurit, peralatan militer yang canggih, dan penempatan atase pertahanan di KBRI Jakarta.

Kata kunci: Industri pertahanan, Indonesia, Brazil, Kerjasama pertahanan militer, Transfer of Technology

**IMPLEMENTATION OF COOPERATION BETWEEN INDONESIA AND BRAZIL IN
THE SECURITY AND DEFENSE INDUSTRY 2010-2017**

abstract

This study will examine the implementation of cooperation between Indonesia and Brazil in the defense industry in 2010-2017. This collaboration began with the signing of an MoU in 2010 which included the purchase of the Super Tucano EMB-314, MLRS Astros II Technology Transfer, deployment of defense attaches and joint military exercises. This study uses a qualitative method approach by looking for data that is in accordance with the research topic, the results show that it is in Indonesia's interest to cooperate in the defense industry with Brazil because currently Indonesia wants its independence in producing defense equipment and modernizing defense equipment. the development of an increasingly real threat so that to protect the territory of the Republic of Indonesia, modern defense equipment is needed. And the benefits for Indonesia, such as the better Indonesian defense equipment, soldier education, sophisticated military equipment, and the placement of defense attaches at the Indonesian Embassy in Jakarta.
