The Effectiveness of Zakat Distribution on the Educational Scholarship Program on the Achievement of Sustainable Development Goals

By Faris Arkanadhytama Rachman

Abstract

The amount of zakat distribution in Indonesia has increased every year. However, the quality of education in Indonesia has not been significantly affected as seen from the dropout rate which has also increased. This research was written with the aim of knowing the level of effectiveness of zakat distribution in the scholarship program at Laznas IZI based on the Sustainable Development Goals. Qualitative method is the method used in this research, and with a case study approach. Data collection techniques by way of observation, interviews, and documentation. Data validation technique with method triangulation and source triangulation. Analysis techniques with data reduction, data presentation, and data verification. The results of this study are that the Laznas IZI Education program is included in the effective category which refers to four categories, namely the accuracy of program targets, program outreach, program objectives, and program monitoring, and the Laznas IZI Education program also contributes to the implementation of achieving the Sustainable Development Goals.

Efektivitas Penyaluran Zakat Pada Program Beasiswa Pendidikan Terhadap Pencapaian *Sustainable Development Goals*

Oleh Faris Arkanadhytama Rachman

Abstrak

Jumlah penyaluran zakat di Indonesia mengalami peningkatan setiap tahunnya. Namun, kualitas pendidikan di Indonesia belum terdampak secara signifikan sebagaimana terlihat dari angka putus sekolah juga mengalami kenaikan. Penelitian ini ditulis dengan tujuan untuk mengetahui tingkat efektivitas penyaluran zakat pada program beasiswa di Laznas IZI berdasarkan pencapaian *Sustainable Development Goals*. Metode kualitatif merupakan metode yang digunakan dalam penelitian ini, dan dengan pendekatan studi kasus. Teknik pengumpulan data dengan cara observasi, wawancara, dan dokumentasi. Teknik validasi data dengan triangulasi metode dan triangulasi sumber. Teknik analisis dengan reduksi data, penyajian data, dan verifikasi data. Hasil dari penelitian ini adalah program Pendidikan Laznas IZI sudah masuk dalam kategori efektif yang mengacu pada empat kategori yaitu kategori ketepatan sasaran program, sosialisasi program, tujuan program, dan pemantauan program, dan program Pendidikan Laznas IZI turut berkontribusi pada pelaksanaan pencapaian *Sustainable Development Goals*.
