

***The Influence of Product Quality, Price, and Brand Image on Purchase Decision
Skin Aqua's Sunscreen in Jakarta***

By Kayani Mayantia

Abstract

This research is a quantitative study with the aim of knowing, proving and analyzing the influence of product quality on purchasing decisions for Skin Aqua skincare sunscreen products in Jakarta. The population in this study are Skin Aqua sunscreen consumers who live in Jakarta. The data collection technique used was non-probability sampling with a purposive sampling method. Then, a sample of 100 respondents was obtained which was distributed via a questionnaire using Google Form. Next, the data is processed with the help of the SmartPLS 4.0 software. The results of the research show that: (1) product quality has a positive and significant influence of 0.551 on purchasing decisions (2) price has a positive and significant influence of 0.322 on purchasing decisions (3) brand image does not have a positive and significant influence of 0.044 on purchasing decisions. The contribution of product quality, price and brand image to purchasing decisions seen from the Adjusted R square is 0.7560 or 75.60% while the remaining 24.40% is caused by other factors.

Keywords : Product Quality, Price, Brand Image, Purchase Decision, Sunscreen

**Pengaruh Kualitas Produk, Harga, dan Citra Merek Terhadap Keputusan
Pembelian *Sunscreen* Skin Aqua di Jakarta**
