

**THE INFLUENCE OF AUDITOR INDEPENDENCE, COMPETENCE, AND  
MORAL REASONING ON AUDIT QUALITY WITH PROFESSIONAL  
SKEPTICISM AS A MODERATOR**

By Simon Christian Patogu Simanjuntak

**Abstract**

*This study employs a quantitative approach to empirically evaluate the influence of Auditor Independence, Competence, and Moral Reasoning on Audit Quality, with the addition of Professional Skepticism as a moderator. The population for this study includes 10 Public Accounting Firms in South Jakarta registered in the Financial Services Authority database. Through a purposive sampling method, a sample of 52 respondents was obtained. The research data was analyzed using Structural Equation Modeling (SEM) with SmartPLS 4.0 software, at a significance level of 0.05 (5%). The test results indicate that (1) auditor independence has a significant positive effect on audit quality; (2) auditor competence does not have a significant positive effect on audit quality; (3) auditor moral reasoning has a significant positive effect on audit quality; (4) professional skepticism does not strengthen the significant influence of auditor independence on audit quality; (5) professional skepticism does not strengthen the significant influence of auditor competence on audit quality; (6) professional skepticism does not strengthen the significant influence of auditor moral reasoning on audit quality*
