ABSTRACT

This research aims to know the effect of celebrity endorsers of Tokopedia's #FlashSaleSpesial9 on consumer purchase intention (a survey to @Tokopedia followers on Instagram). Concept and model that relevant in this study are AIDA model, Celebrity Endorsers and Consumer Purchase Intention concept. Celebrity endorsers is one of the advertising techniques that companies use to create awareness and gain favourable responses about their products and services. This study therefore examined the effect of celebrity endorsers advertisement on consumers purchase intention using quantitative research methods. The population of study for the research are the followers of Tokopedia (@Tokopedia) on Instagram. To make the sampling selection scientific, the researcher employed non probability sampling that does not provide the same opportunity for element or member of the population to be selected as a sample. The result of this research are Ho denied and Ha accepted, it means the greater the effect of Tokopedia's #FlashSaleSpesial9 celebrity endorsers, the higher the intention of purchase on consumer.

Keywords : *Celebrity Endorsers, Consumer Purchase Intention, Quantitative.*
