ABSTRAK

Pencatatan keuangan yang masih dilakukan secara manual menjadi salah satu kendala yang dihadapi banyak UMKM dalam mengelola usahanya. Proyek ini bertujuan untuk mengimplementasikan sistem pencatatan akuntansi berbasis digital menggunakan *Accurate Online* pada UMKM Pabrik Tempe Bapak Carmin di Cinere, Depok. Sebelum implementasi dilakukan, transaksi usaha belum dicatat secara terstruktur sehingga pemilik usaha mengalami kesulitan dalam mengetahui kondisi keuangan secara akurat. Metode yang digunakan meliputi wawancara, observasi, merekapitulasi data transaksi, implementasi sistem, dan pendampingan penggunaan aplikasi. Data transaksi bulan April 2026 yang mencakup kegiatan produksi, pembelian, penjualan, dan biaya operasional berhasil diinput ke dalam *Accurate Online*. Hasil implementasi menunjukkan bahwa sistem mampu menghasilkan laporan keuangan secara otomatis dan membantu meningkatkan keteraturan pencatatan transaksi, pengelolaan persediaan, serta penyediaan informasi keuangan yang lebih akurat. Dengan demikian, *Accurate Online* dapat menjadi solusi yang efektif dalam mendukung pengelolaan keuangan UMKM.

Kata Kunci: *Accurate Online*, Akuntansi Digital, Laporan Keuangan, UMKM, Pabrik Tempe.

IMPLEMENTATION OF ACCOUNTING RECORD-KEEPING AT TEMPE FACTORY SMEs USING ACCURATE ONLINE

ABSTRACT

Manual financial recording remains one of the main challenges faced by many Micro, Small, and Medium Enterprises (MSMEs) in managing their businesses. This project aimed to implement a digital accounting system using Accurate Online at Mr. Carmin's Tempe Manufacturing MSME in Cinere, Depok. Prior to the implementation, business transactions were not recorded systematically, making it difficult for the owner to monitor the financial condition accurately. The methods employed in this study included interviews, observations, transaction data recapitulation, system implementation, and application usage assistance. Transaction data for April 2026, including production, purchases, sales, and operational expenses, were successfully entered into Accurate Online. The implementation results showed that the system was able to generate financial reports automatically and improve transaction recording, inventory management, and financial information accuracy. Therefore, Accurate Online can serve as an effective solution for supporting financial management in MSMEs.
