# **THE EFFECT OF ELECTRONIC WORD OF MOUTH TOWARDS PURCHASE DECISION ON E-COMMERCE (CASE STUDY ON TOKOPEDIA AND SHOPEE)**

Delia Rahma Savitri – 1510512016

## **ABSTRACT**

Along with the development of technology and the internet, e-commerce as a means of buying and selling online cannot be separated from its relationship with marketing strategies to develop business. The phenomenon of electronic word of mouth becomes important in determining purchasing decisions. The purpose of this study was to determine the effect of electronic word of mouth on purchasing decisions. Electronic Word of Mouth is written communication with electronic media related to the excellence or experience of buyers in products purchased through electronic technology. There are seven dimensions of electronic word of mouth used in this study, namely platform assistance, concern for others, economic incentives, helping companies, expressing positive emotions, venting negative feelings, and advice seeking. This research uses a quantitative approach with instruments using a questionnaire and analyzed using multiple regression analysis. The sample used was 85 respondents with criteria ever shop online and know the meaning of reviews. The results of this study indicate that electronic word of mouth influences purchasing decisions with three dimensions of electronic word of mouth significantly influence.
