## Abstract

Implementation of ASEAN's 6-Points Principles on The South China Sea is to finding solution for LTS disputes between Tiongkok and some of ASEAN Member States, as we called it as claimant states. ASEAN Foreign Minister with Tiongkok Foreign Minister declare a document, named *Declaration on the Conduct of Parties in the South China Sea* (DOC) in 2002 for the first time as Peace Resolution within the conflict. It takes longest time for implementing the *Code of Conduct* (COC) which is not done yet. After ASEAN-Tiongkok Working Group, they blow up another document named *ASEAN's 6-Points Principles on the South China Sea*. This research want to see how *ASEAN's 6-Points Principles on the South China Sea* implemented in South Tiongkok Sea from 2012 until 2016, using Regional Security Cooperation concept. 2012 was a year when the *ASEAN's 6-Points Principles on the South China Sea* has been declared, and also this periodic to help researcher limits the range of research. This study have qualitative research and using Literature review and interview. The results of this research can be seen that Implementation of *ASEAN's 6-Points Principles on the South China Sea*, is done yet to show maximum results, because not every point of principles been implemented yet.
